Grandfather Mountain. Elevation, 5,997 feet.

LINVILLE NURSERIES

Located at an elevation of 4,500 feet above sea-level "Crest of the Blue Ridge Mountains"

LINVILLE, NORTH CAROLINA

Introductory

HE Linville Nurseries, at Linville, N. C. (on the Black Bear Trail from Canada to Florida), are ideally located on the slope of Grandfather Mountain at an elevation of 4,500 feet above sealevel; and upon the 16,000-acre tract owned by the Linville Improvement Company.

Although the Nursery has only recently been established, a considerable planting has been made, but none of this nursery stock will be offered for sale before 1930.

We will, for the time being, specialize in collected native plants as are described in this folder. The locations from which these plants will be collected, being amid the peaks of the Blue Ridge, one of the oldest mountain ranges of the world, give us the opportunity to offer plants of unusual vigor and hardiness.

Louis A. Berckmans and P. J. A. Berckmans, who for many years were members of the firm of the P. J. Berckmans Company Nurseries (established in 1856) at Augusta, Ga., are associated with us in the management of the Nursery and will give their personal attention to its affairs; furthermore, we have experienced and capable assistants, therefore we are in a position to give our clients most efficient and satisfactory service.
